Listserv Information
SPORTPSY is an electronic mail bulletin board on exercise and sport psychology, with more than 1,000 members. SPORTPSY can now be found at listserv.temple.edu. To join SPORTPSY send the following command at the command line: Tell listserv at listserv.temple.edu subscribe SPORTPSY your name or send a message to listserv@listserv.temple.edu with nothing in the subject heading and only the following in the text: SUB SPORTPSY your name. If neither approach works check with your campus electronic mail expert or send Michael Sachs a message at msachs@nimbus.temple.edu.

A listserv (AAASP-Expsych) dedicated specifically for exercise and health-related topics also exists. The listserv is open to all members of the Association for the Advancement of Applied Sport Psychology, and is intended for discussions related to exercise and health related research and practice. For more information and to subscribe, go to: https://list.mail.virginia.edu/mailman/listinfo/aaasp-expsych

STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION OF THE SPORT PSYCHOLOGIST (ISSN 0888–4781), as required by 39 U.S. Code 3684:

The Sport Psychologist (ISSN 0888–4781) is published four times a year (quarterly). Subscription fees are $63 per year for individuals and $315 per year for institutions.

The owner of The Sport Psychologist is Human Kinetics, Inc., whose office of publication is at 1607 N. Market St., Champaign, IL 61820-2200. The editor is Ian Maynard, Center for Sport and Exercise Science, Sheffield Hallam University, Collegiate Crescent Campus, Sheffield S10 2BP UK. The publisher is Human Kinetics, Inc., whose address is Box 5076, Champaign, IL 61825-5076. There are no bondholders, mortgagees, or other security holders.

Average number of copies printed per issue (net press run) during the preceding 12 months is 1169; number of copies nearest to filing date is 944. Average number of copies of each issue distributed after mass mailing to subscribers during the preceding 12 months is 17; number of copies nearest to filing date is 23. Average number of copies of each issue distributed in mass mailing to subscribers during the preceding 12 months is 885; number of copies nearest to filing date is 738. Average number of copies of each issue distributed free during the preceding 12 months is 26; number of copies nearest to filing date is 25.
INSTRUCTIONS TO CONTRIBUTORS

In preparing manuscripts for publication in The Sport Psychologist, authors should adhere to the guidelines in the Publication Manual of the APA (6th ed., 2009). Copies are found in most university libraries or may be obtained through the Order Department, American Psychological Association, PO Box 92984, Washington, DC 20090-2894, http://www.apa.org/books/, Phone: 800-374-2721. All articles must be preceded by an abstract, not to exceed 120 words, typed on a separate page. Special attention should be given to the preparation and accuracy of references. The manuscript should be double-spaced, including the abstract, references, and any block quotations. Manuscripts are subject to editing to eliminate sexist and biased language.

Authors should submit their manuscript through Manuscript Central, the online submission system for The Sport Psychologist at http://mc.manuscriptcentral.com/hk_tsp. Manuscript Central manages the electronic transfer of manuscripts throughout the article review process while providing step-by-step instructions and a user-friendly design. Please access the site and follow the directions for authors submitting manuscripts. Any problems that may be encountered can be resolved easily by selecting “Get Help Now” in the upper-right corner of any Manuscript Central screen. Please note that a blind review process is used to evaluate manuscripts. As such, any clues to the author’s identity should be eliminated from the manuscript. The first page of the manuscript must not include author names or affiliations, but it should include the title of the paper and the date of submission.

If it is impossible to submit manuscripts electronically, mail one original copy and a disk version of original and blind copies of the manuscript in Microsoft Word or Word Perfect (for PC, preferably). Applied Research manuscripts should be sent to I.W. Maynard@shu.ac.uk or Ian Maynard, Sheffield Hallam University, Centre for Sport and Exercise Science, Collegiate Crescent Campus, Sheffield, S10 2BP, United Kingdom. Professional Practice manuscripts should be sent to shanton@uwic.ac.uk or Sheldon Hanton, PhD, School of Sport, PE, and Recreation, University of Wales Institute, Cardiff, Cyncoed Road, Cardiff, CF23 6XD, United Kingdom.

Manuscripts must not be submitted to another journal at the same time. Authors are advised to check carefully the typing of the final copy and to retain a copy of the manuscript to guard against loss. Manuscripts will not be returned to authors. Manuscripts are read by two reviewers, with the review process taking 8-12 weeks. There are no page charges to contributors. Authors of manuscripts accepted for publication must transfer copyright to Human Kinetics, Inc.

Brief reports are limited to 7 pages. Articles in the Applied Research and Professional Practice categories generally should not exceed 25 pages. They will be judged according to their applied focus, contributions to knowledge, presentation of information, appropriateness of the discussion, interpretation of ideas, and clarity of writing. In addition, Applied Research articles will be judged on their methodology/design and data analysis. Authors are expected to have their raw data and descriptive statistics available throughout the editorial review process and are responsible for providing elaboration upon request.
**The Sport Psychologist (TSP)** examines sport psychology consulting and interventions and addresses the practical implications of research and theory. *TSP* emphasizes the delivery of psychological services to practitioners such as athletes and coaches.

Individuals and students can get the print and online versions of a journal at the same price as the print or online version alone.

Best-selling sport and exercise psychology text continues to raise the bar

**Foundations of Sport and Exercise Psychology**

*Fifth Edition*

*Robert S. Weinberg * Daniel Gould

©2011 • Hardback • 640 pp
$99.00 ($111.95 CDN, £49.95 UK, €59.90 EURO, $135.00 AUS, $173.00 NZ)

$55.00 ($61.95 CDN, £34.95 UK, €41.90 EURO, $72.60 AUS, $93.00 NZ)

Audiences: A text for introductory sport and exercise psychology courses. Also a reference for libraries and sport psychologists.

The latest edition of the best-selling sport and exercise psychology book on the market, *Foundations of Sport and Exercise Psychology, Fifth Edition*, provides a thorough introduction to the key concepts in the field. Written by internationally respected authors, it provides students and new practitioners with a comprehensive view of sport and exercise psychology, bridges the gap between research and practice, conveys principles of professional practice, and captures the excitement of the world of sport and exercise.

To further improve the total learning experience, the fifth edition features the following:

- A streamlined online study guide that provides an interactive learning experience for students
- A new full-color format that visually engages students in the information
- An emphasis on the educational journey that students take through the field of sport and exercise psychology, helping them envision where they can be most successful in the field
- Thoroughly updated material that reflects the latest research and practice to keep readers aware of recent findings and hot topics in the field
- New sidebars with contemporary practical examples, case studies, and anecdotes to help students understand various theories and concepts

Recognize methods of treating anger issues in sport

Audiences: A reference for practitioners dealing with athletes and anger; sport psychology consultants; sport officials and administrators; and researchers interested in further study of the subject.

Anger Management in Sport: Understanding and Controlling Violence in Athletes addresses this important topic and provides strategies and interventions for overcoming excessive anger and aggression in athletes. The provocative book challenges long-held assumptions and points the way to further research and discussion.

With its accessible format and proactive approach, Anger Management in Sport is an ideal resource for practitioners at all levels of sport who work with athletes and anger, both on and off the field. The author’s unique insight will stimulate discussion on a range of issues associated with anger in sport, including mental illness, drugs, and differences and similarities in amateur and professional athletes. Readers will understand not only how to approach an anger problem but also how to help an athlete work to manage emotions.
An introductory look at sport and exercise psychology as a career

Audiences: A reference for undergraduate, community college, or high school students with an interest in sport psychology, and graduate students beginning a new program of study; a supplemental reading for introduction to kinesiology courses; a reference for academic counselors and libraries.

Fundamentals of Sport and Exercise Psychology provides a preparatory look at the opportunities and goals in the field of sport and exercise psychology. Rather than focus on theory and concepts, this text answers basic questions for newcomers to the field by explaining the principles of sport and exercise psychology and what it has to offer. It explores where sport and exercise psychology professionals work, the types of jobs they hold, the services they provide, and the opportunities available to those thinking of entering the field.

This text is the first in Human Kinetics’ Fundamentals of Sport and Exercise Science series. The series helps students and professionals understand the basic topics, goals, and applications of the many subdisciplines in kinesiology. This and other books in the series provide a solid grounding for further study.
