NASPSPA INFORMATION

OFFICERS

President - Glyn C. Roberts
(University of Illinois)
Past President - Tara K. Scanlan
(UCLA)
President Elect - Robert W. Schutz
(University of British Columbia)
Secretary-Treasurer - Craig A. Wrisberg
(University of Tennessee)
Publications Director - Penny McCullagh Wallace
(University of Colorado)

1983 CONFERENCE

The 1983 NASPSPA Conference will be held May 28-31 (1983) at the Kellogg Conference Center on the campus of Michigan State University, East Lansing. NASPSPA welcomes the presence of the Canadian Society for Psychomotor Learning and Sport Psychology (CSPLSP) who will hold their annual conference in conjunction with NASPSPA. Dr. Deborah Feltz, the conference site director, is organizing the housing, meals, social events, etc. Details will appear in the Conference Flyer which will be mailed late in December. The Conference will open with the traditional wine and cheese reception on Saturday evening and conclude at noon on Tuesday the 31st. Dr. Robert Schutz (President-Elect) is coordinating what promises to be a high quality program. Keynote speakers, listed below, have been confirmed, and the area program chairpersons are presently finalizing arrangements for invited symposia. The call for abstracts and submitted symposia has now been made and procedures for submitting abstracts will appear in the December Conference Flyer.

Motor Learning/Control

Keynote Speaker: Dr. John Hollerbach
Department of Psychology
Massachusetts Institute of
Technology

Dr. John Hollerbach, professor in the Department of Psychology at the Massachusetts Institute of Technology will be the major speaker in the motor learning/control section. Dr. Hollerbach, a recent Ph.D. from the Artificial Intelligence program at MIT has conducted very elegant and theoretical work in two areas. First, an analysis of handwriting from an oscillatory spring model. Second, an analysis of control of two dimensional movements. These works have been published in *Biological Cybernetics* in 1981 and 1982. Finally, Dr. Hollerbach has written an article in one of the most recent *Trends in Neuroscience* concerning minds, computers and motor control. His talk will center around this article and his most recent article with Tamer Flash in *Biological Cybernetics*.

Invited Symposium: Dr. Diane Shapiro, (UCLA)
Dr. John Hollerbach
Dr. J. Soechting

Tentative Title: "Learning and Control of Skilled Movements."

Motor Development

Keynote Speaker: Professor William Charlesworth
Institute of Child Development
University of Minnesota

Tentative Title: "An Ethological Approach to
Studying and Understanding
Physical Sports."

Dr. William Charlesworth is applying concepts of ethology and evolutionary biology to the study of human behavior. He is particularly interested in methodology of naturalistic observations which he is using in studying problem solving behavior and intelligence and development of competence and cooperation in children. Dr. Charlesworth has published numerous articles including: Understanding the other half of intelligence which appeared in Social Sciences Information in 1978 and Ontogeny of Political Behavior which appeared in American Behavioral Scientist in 1982.

Invited Symposium: Dr. J. Lauren Harris
Department of Psychology
Michigan State University

Tentative Title: "Current Research on Manual
Asymmetry."

Sport Psychology

Keynote Speaker: Dr. Daniel Kirschenbaum
Department of Psychology
University of Wisconsin

Tentative Title: "Toward Improved Performance
in Sport: Three Directions
for Intervention Research."

Dr. Daniel S. Kirschenbaum received his Ph.D. in Psychology from the University of Cincinnati in 1975, and is currently Assistant Professor of Psychology at the University of Wisconsin, Madison. His training and research are in the area of clinical psychology, with particular emphasis on cognitive-behavioral interventions. Dr. Kirschenbaum has authored numerous book chapters and over 25 articles in journals such as Journal of Personality and Social Psychology, Journal of Consulting and Clinical Psychology, Behavior Therapy, and Cognitive Therapy and Research, including several publications on the use of cognitive-behavioral interventions to enhance sport performance.

Invited Symposium: Dr. Jere Brophy
Department of Educational
Psychology
Michigan State University

Dr. Thelma Horne
Department of Physical
Education
University of Wisconsin-
Milwaukee

Tentative Title: "Teacher/Coach Expectancy."

Call for Papers

Persons wishing to submit abstracts for:

- (1) Lecture communications
- (2) Interactive presentations
- (3) Submitted symposia

should watch for the Conference flyer which will provide detailed instructions regarding format and procedures for submissions. All abstracts should be mailed to:

Dr. Deborah Feltz
Institute for the Study of Youth Sports
Womens' Intramural Building
Michigan State University
East Lansing, MI 48824

DUE DATE FOR ALL ABSTRACTS: FEB. 11, 1983 

Abstracts for each of the three content areas will be evaluated by the program committee for that respective area.

Motor Development

Dr. Jack Keogh (UCLA) Chair
Dr. Anne Bueter (USC)
Dr. Eric Roy (Mt. Sinai Hospital)
Dr. Al Salmoni (Laurentian University)
Dr. Harriet Williams (Univ. of South Carolina)

Motor Learning/Control

Dr. Howard Zelaznik (Purdue Univ.) Chair
Dr. Greg Anson (Univ. of Washington)
Dr. John McCabe (Dalhousie University)
Dr. Karl Newell (University of Illinois)
Dr. Diane Shapiro (UCLA)

Sport Psychology

Dr. Michael Passer (Univ. of Wash.) Chair
Dr. Bert Carron (Univ. of Western Ontario)
Dr. Joan Duda (UCLA)
Dr. Diane Gill (University of Iowa)
Dr. Ron Smith (University of Washington)

FUTURE CONFERENCES

1984 NASPSPA CONFERENCE

The 1984 NASPSPA Conference will be held in conjunction with the 1984 Olympic Scientific Congress. The Congress will be held from July 16 to July 26. NASPSPA is to be responsible for coordinating all papers dealing with motor learning/control, motor development and sport psychology. NASPSPA will be housed in a single hotel and will have its sessions in the mornings. The afternoon sessions will be given up to Congress themes (e.g., Children in Sport) which will bring speakers from many disciplines together to address a topic. At the present time, 12 National and International organizations have agreed to hold their Annual Meetings in conjunction with the Congress. This is a unique opportunity for NASPSPA to act as a host to scientists from all over the world and to influence the substantive content of the Congress.

1985 NASPSPA CONFERENCE

The 1985 NASPSPA Annual Conference will be hosted by the Louisiana State University in cooperation with the University of Southern Mississippi. Dates for the conference have been set for May 25-28, 1985. The actual site of the conference will be at the Gulf Park Campus of the University of Southern Mississippi, which is located on the largest man-made beach in the world. The conference center has self-contained meeting and recreational facilities and is well suited for the annual conference.

1986 NASPSPA CONFERENCE

Applications are currently being accepted for the 1986 NASPSPA Conference. Institutions interested in hosting this conference should complete the application contained in the Winter 81-82 Newsletter (Vol. 7, No. 1, p. 6) or contact:

Dr. Glyn C. Roberts
President, NASPSPA
ICBD-Gerty Drive
University of Illinois
Champaign, IL 61820

Minutes-Executive Committee

University of British Columbia, Vancouver, B.C.
November 5-6, 1982

President Glyn Roberts called the meeting to order.

The Executive Committee meeting minutes from the meeting at the University of Maryland, May 28-29, 1982 were approved as published in the Fall 1982 NASPSPA Newsletter.

Secretary-Treasurer's Report (Craig Wrisberg)

1. A balance of \$5075.96 is in the NASPSPA bank account as of October 31, 1982.
2. As of October 31, 1982 the membership total is 504 members. This represents an increase of 91 members over the total membership of 1981.

The following information is a breakdown of the membership according to type of membership, number of members from different countries, and area of interest.

Professional members	327
Student members	177
Total	504

U.S. members	432
Canadian members	54
Other--Australia (9); England (5) Japan (1); Egypt (2); New Zealand (1)	18

Sport Psychology	237
Motor Learning and Control	166
Motor Development	63

3. A 1982 budget report was presented along with a proposed budget for 1983. The proposed 1983 budget is attached.
4. Craig Wrisberg gratefully acknowledged the assistance of Dick Magill in facilitating the turnover in the Secretary-Treasurer position.

Publications Director's Report (Penny McCullagh-Wallace)

1. The format for the 1982 NASPSPA Membership Directory was presented. It will be published in December, 1982 and mailed to members shortly thereafter. The directory will be published every other year. Cost estimates for this year's directory were presented.
2. The cost of processing and mailing the Fall, 1982 NASPSPA Newsletter was substantially higher than usual (\$842.04) due to the inclusion of an eight-page addendum detailing 1) Ethical Standards for the Provision of Services by NASPSPA members, and 2) Guidelines for Psychological Testing within Sport and Physical Activity Settings. Both of these documents were recently approved by

3. The submission deadlines for the NASPSPA Newsletter are November 1 (Winter) and April 1 (Spring).

President-Elect's Report (Bob Schutz)

1. An update on the preparations for the 1983 Conference at Michigan State University was presented. The program committees have been appointed and are progressing on schedule (Please see details elsewhere in this Newsletter). The deadline for submission of papers, posters, and symposia is February 11, 1983.

Past President's Report (Tara Scanlan)

1. Nomination procedures for Executive Committee positions were discussed. It was suggested that attention be given to preserving balance on the Executive Committee with respect to area of interest, gender, and institutional affiliation.
2. Additional guidelines for the selection of committee members for the NASPSPA Early Career Distinguished Scholar Award and the NASPSPA Distinguished Scholar Award were discussed. It was agreed that the following guidelines should be added to existing guidelines: 1) Anyone submitting a nomination or writing a letter of support for a candidate is disqualified from serving on the selection committee, and 2) no member of the Selection Committee may be from the same institution as a nominee or have been the doctoral advisor or advisee of a nominee. If any of the above restrictions apply to the Past President (who chairs the Scholar Award Committees), he or she will refuse to exercise the right to vote.
The selection committee has been chosen in the event someone is nominated for the awards. Members of the committee who will serve a two year term are Lolias Halverson, Daniel M. Landers and Ron Marteniuk.

President's Report (Glyn Roberts)

1. Glyn Roberts reported that he had received written notification from Dr. Miroslav Vanek, President of the International Society of Sports Psychology (ISSP) approving NASPSPA affiliation with that society. Written acceptance of the conditions of this affiliation and annual dues (\$100) will be forwarded to ISSP. The NASPSPA President or his/her delegate will represent NASPSPA at meetings of the ISSP Managing Council. The President will appoint a NASPSPA representative to attend other ISSP meetings.
2. It was announced that tax-exempt status for NASPSPA was filed with the state of Illinois on June 16, 1982.
3. It was also announced that the Ad Hoc Committee of Past Presidents will be meeting early in 1983 (for the charge of this committee please see the Summer Newsletter).

Policy Manual

The NASPSPA Policy Manual will be completed within the next several months. The Executive Committee agreed that as a matter of policy all NASPSPA members should be issued a) one copy of the document Ethical Standards for the Provision of Services by NASPSPA Members, b) one copy of the document Guidelines for Psychological Testing Within Sport and Physical Activity Settings, and c) one copy of the most recent NASPSPA Membership Directory.

New Business

1. Journal Discount Policy

After a discussion of the discount policy it was agreed that the discounts for the Journal of Motor Behavior and the Journal of Sports Psychology will be offered to professional members in 1983. The new discounted price for each journal is \$16 (regular individual subscriptions are \$35 for JMB and \$20 for JSP). Non-U.S. members will be asked to pay additional postage costs of \$5 for JMB and \$3 for JSP. The Executive Committee decided not to continue with the policy of discounting Motor Skills: Theory into Practice. The publication lag on this journal is now 12 months and the Executive Committee has informed the Editor of MS:TIP that the journal may re-apply for the discount privilege when the issues are current.

2. 1984 Conference

Dr. Dan Tripps, Executive Director of the 1984 Olympic Scientific Congress met with the Executive Committee to explain the current progress of planning for the Congress. Following Dr. Tripps' presentation, the Executive Committee unanimously reaffirmed the decision to hold the 1984 NASPSPA Conference as an official part of the 1984 Olympic Scientific Congress to be held in Eugene, Oregon, from July 19th to July 26th. The Executive Committee had had some concerns, but these were resolved with Dr. Tripps. The unique opportunity for NASPSPA to contribute to the planning of the Congress and for NASPSPA to be responsible for the selection and hosting of all major contributors to the areas of concern to NASPSPA were the primary reasons for the Executive Committee to commit NASPSPA to the Congress.

The Executive Committee unanimously agreed that Glyn Roberts serve as the liaison of NASPSPA to the Congress. The next President-Elect would be responsible for the planning and content of NASPSPA's program as has been the case in the past.

3. 1985 Conference

The 1985 Conference will be held at Louisiana State University, Baton Rouge, Louisiana, on the 25th-28th of May (Not over Memorial Day weekend).

4. Associate Memberships

Following discussion of the concept of an Associate Membership for scientists not formally associated with NASPSPA (suggested by Steve Wallace), it was agreed that major speakers who present at the Annual Conference be put on the NASPSPA mailing list for one year and be invited by the NASPSPA President to become a regular member of our Society.

5. Clarification of the Role and Scope of the Secretary-Treasurer's Office

The Committee attempted to clarify several duties of the office of Secretary-Treasurer. It was concluded that the person serving in this capacity should: a) coordinate travel plans for the Annual Fall Executive Committee Meeting; and b) provide the Publications Director with updated membership information for NASPSPA mailings.

It was agreed that an amount of \$400 be made available to the Secretary-Treasurer to be used, if needed, to hire part-time help during peak-demand periods. The membership of NASPSPA is increasing substantially with a subsequent increase in the time commitment of the Secretary-Treasurer.

The meeting was adjourned by President Roberts. The next Executive Committee Meeting will be held at Michigan State University prior to the annual Conference.

Craig A. Wrisberg
Secretary-Treasurer

GENERAL INFORMATION

NASPE SPORT PSYCHOLOGY ACADEMY SOLICITS ABSTRACTS FOR THIRD ANNUAL DISSERTATION AWARD

The NASPE Sport Psychology Academy has announced the third annual dissertation award competition and solicits nominations for and applications from individuals whose dissertations were completed between January 1, 1982 and December 31, 1982. Information and forms may be obtained by contacting Dr. David Pargman, Chairman of the Awards Committee.

The recipient of the award will be invited to speak briefly at the Sport Psychology Academy meetings at the Annual American Alliance for Health, Physical Education, Recreation, and Dance Conference in Minneapolis, MN to be held April 7-11, 1983. The award will be presented at that time. Each dissertation abstract will be judged by members of the committee and by experts on the subject of the thesis, as necessary.

Abstracts should be sent to David Pargman, 201 Montgomery Gym, Department of Movement Science and Physical Education, Florida State University, Tallahassee, Florida 32306. Following a review of the abstracts, the Awards Committee may request a copy of the complete dissertation for the final review and selection.

FEATURED ARTICLE

In the Winter 81-82 edition of the Newsletter two articles were published addressing the issue of the publishing game and authorship of scientific articles. The following article addresses another concern related to the publication of scientific research.

SUPPORT OF SCIENTIFIC JOURNALS

by Philip H. Abelson (Science, 1981, October 23, 214(4519)(Copyright 1981 by the American Association for the Advancement of Science) is reprinted with their permission.

"Offices of scientific societies and editors of their journals are becoming apprehensive about the future of scientific publication. A system that has served science and society well is moving into a phase of increasing financial stress. The Royal Society has conducted a study of scientific publication in the United Kingdom.* A major conclusion is that "a combination of pressures will very soon put the scholarly scientific publication system of the United Kingdom, as of other countries, under considerable strain. Journals are increasingly dependent on the international library market for their income; libraries are suffering cuts in their budgets and are looking for ways to economize; they have to cancel subscriptions to some periodicals on the assumption that material from them if requested can be obtained as loans or photocopies under some interlibrary cooperation scheme.... Scientists themselves assume that the journal and library system will continue and in general do not wish to see restriction on photocopying. Publishers see this as a severe threat to their existence. New specialized journals continue to be launched.... These new and often expensive journals intensify the librarian's problems."

Prior to World War II, journals published by scientific societies in the United States received most of their financial revenues from members. Today only a minor fraction are supported in that way. Instead, the burden has been shifted largely to the libraries. An example is the structure of financial support for the Journal of Biological Chemistry, sponsored by the American Society of Biological Chemists. This periodical publishes about 12,000 pages a year. It has almost 7000 subscribers, consisting of 5000 nonmembers, who pay \$285 each; 1200 members, who pay \$100; and 650 students, who pay a nominal rate. Authors are charged \$35 a page, but the page charges are not always honored. The result is that nonmembers, mainly libraries, provide about 75 percent of the support. Practices vary among the major societies. A few charge up to \$140 a page; some have no page charge. Almost all have higher subscription rates for nonmembers than for members.

Many scientific journals are owned by commercial publishers. They obtain almost all their revenues from libraries. Subscription rates are high, sometimes thousands of dollars a year. Costs range up to 20 cents per page and more, whereas the scientific societies provide material to libraries at usually no more than 3 cents per page.

For more than a decade, costs of periodicals have increased faster than inflation, while library budgets have usually barely kept up with it. Librarians have sacrificed services and procurement of books to maintain their serial collections. Now many find that they must curtail subscriptions. The libraries cannot be counted on to continue to be the sole or major support of scientific periodicals.

The publication of refereed journals is crucial to the health of science. If present modes of support are curtailed, costs must be reduced or additional revenues obtained from other sources. The best way of cutting costs is to reduce the number of pages printed. Today many scientists give priority to publishing as many items and pages as possible. If the goal were to cram information into a limited space, the number of pages could be reduced by a factor of 2 to 4.

Additional revenues might be obtained from page charges. After all, research is not complete until it is published. The federal government might be asked to support scientific publication directly; at present, there is little chance that it will do so. In the end, it may be necessary for the members of scientific societies to contribute more. They already provide substantial support by refereeing articles, but in the future they may be called on for much larger membership fees." --Philip H. Abelson

*"A Study of the Scientific Information System in the United Kingdom" (Royal Society, London, May 1981).

NEW POSITIONS

Assistant Professor - Sports Psychology - Sept. 1983

Qualifications: Ph.D. in hand in Physical Education with emphasis in Sports Psychology. Teaching experience at collegiate level preferred. Preference will be given to candidates with demonstrated success in research and writing.

Primary Responsibilities: Teach at the undergraduate levels in the area of Sports Psychology; will be expected to do research and writing in this area; will be working with the Youth Sports Institute as a clinician and seminarian; will serve as graduate advisor for master's candidates as well as on doctoral committees; department and college committee work.

Contact: Inquiries, applications, credentials (including academic transcripts, resume, three letters of professional recommendation and any other pertinent information) should be directed to:

Dr. Gale E. Mikles, Chairman
Dept. of Health & Physical Education
230 Jenison Fieldhouse
Michigan State University
East Lansing, MI 48824
(517) 355-1642

Equal Opportunity/Affirmative Action Employer.

POSITION VACANCY: Assistant/Associate or Professor*
Full-time position.

The Department of Physical Education and Dance at the University of Wisconsin-Madison is seeking a faculty member with expertise in an area related to movement disorders/handicapped. We seek a candidate with the highest academic credentials and with demonstrated excellence in teaching. The successful candidate will be expected to establish a vigorous research program with external funding.

Date: This is a full-time position that will begin August 23, 1982.

Responsibilities:

1. Teach courses related to movement disorders/handicapped.
2. Develop a strong research program in an area related to movement disorders/handicapped.
3. Coordinate courses in the elective Physical Education Program for the handicapped.
4. Participate in and meet the teaching, research and service responsibilities required by the department and the University.

Qualifications: Ph.D./M.D. degree required.

Demonstrated ability to conduct high quality, independent, original research in an area related to movement disorders/handicapped.

A supporting teaching/research area in the Biomechanical, Physiological, Psychological or Neuropsychological aspects of human movement is desirable.

Salary: Commensurate with qualifications and experience.

Apply: Submit: a) letter of application, including statement of past experience, b) Curriculum vitae, including research publications and preprints, c) three letters of recommendation to:

Professor George E. Stelmach, Chairperson
Search Committee: Movement Disorders/
Handicapped
Dept. of Physical Education & Dance
2000 Observatory Drive
Madison, WI 53706

Recent graduates of the Department of Physical Education and Dance, University of Wisconsin-Madison, are not eligible to apply for this position.

APPLICATIONS ACCEPTED UNTIL JANUARY 8, 1983, or until an acceptable candidate is identified.

*If appointment is an Assistant Professor level, it will be a tenure-track probationary appointment for a three-year period beginning August 23, 1983. If appointment is at Associate or Professor level the appointment will be with tenure.

An equal opportunity/affirmative action employer.

POSITION: Assistant Professor - Motor Control - University of Iowa.

Tenure track position in the Department of Physical Education. Knowledge of physiological biomechanical and/or action-perception systems in motor control. Expertise in EMG, Kinematic or metabolic analysis of movement. Candidate is expected to conduct research and teach.

Screening of applications begins February 1, 1983; Send vita, transcripts and copies of reprints to:

Dr. D. Larish
Motor Behavior Lab
5301 Fieldhouse
University of Iowa
Iowa City, Iowa 52242

An equal opportunity/affirmative action employer.

New Positions

Christopher Malone (University of Virginia) has accepted a position at the State University of New York at Corland in the Dept. of Health and Physical Education teaching sport psychology as well as coaching women's soccer and serving as Assistant Director of Womens' Athletics.

DATES TO NOTE — MARK YOUR CALENDAR

February 11, 1983

ABSTRACTS DUE FOR NASPSA CONFERENCE

February 19, 1983

ENHANCEMENT OF THE PERSON AND PERFORMANCE

Topics and Speakers:

Psychology of Pair - Dr. Ruess Lord

Motor Learning for Athletic Skills - Dr. William Kozar

Motivation for Peak Performance - Mr. Jack Frost

Psychology of Rehabilitation - Mr. Steve Annanopolis

Attention, Arousal Levels - Dr. Dan Gould

Concentration and Mental Preparation - Wayne Baughnam

Understanding the Learning Process - Mr. Paul Schnur

Stress Management of Athletes - Dr. Ron Smith

Visual Behavior - Dr. Dick Suinn

Psychology of Discipline - Mr. Mike Friedman

Motivating the Not-So-Gifted Athlete - Mr. Chuck Haering

Overview of the USOC Training Program - Jeanne Stone

Registration \$90.00 Rooms (Single or Double) \$35.00 per night. Contact:

Dan Griggs, Conference Coordinator
Office of Continuing Education
University of Southern Colorado
Pueblo, CO 81001
