Recreation resources for your course needs

Race, Ethnicity, and Leisure
Perspectives on Research, Theory, and Practice

Monika Stodolska • Kimberly J. Shinew
Myron F. Floyd • Gordon J. Walker
Editors

NEW!
Race, Ethnicity, and Leisure: Perspectives on Research, Theory, and Practice brings together 28 world-renowned researchers who provide a comprehensive review and unified perspective on leisure in relation to five minority populations in the United States and Canada: African Americans, Latino Americans, Asian North Americans, Indigenous peoples, and religious minority groups.

Written for upper-level undergraduate and graduate recreation and leisure courses, Race, Ethnicity, and Leisure examines the current theories and practices related to minority leisure and reviews numerous issues related to these diverse groups’ leisure, including needs and motivations, constraints, and discrimination. As a text and reference for recreation and leisure professors and professionals, you’ll have an unprecedented text that offers an extensive look at the changing landscape of recreation, leisure pursuits, our world, and the populations that are driving these changes.

Introduction to Recreation and Leisure, Second Edition, is a textbook designed for the first undergraduate course in a recreation or leisure program. With its 21st-century views of recreation and leisure services, it indicates future directions in the field and offers diverse international perspectives. In the second edition of Introduction to Recreation and Leisure, invited experts from around the world offer their perspectives on the industry. These authors are emerging and leading professionals and eminent scholars in leisure education. The new edition includes a web resource that supports students in the classroom as well as in the online setting with ways to explore the foundation of recreation and leisure and its opportunities for careers.

Integrated Risk Management for Leisure Services provides both students and professionals with a systematic approach to safety. By integrating risk management, accident prevention, and emergency response with information on legal liability, Integrated Risk Management for Leisure Services enables leisure service providers to implement strategies to reduce or eliminate bodily injury, property damage, and financial loss.

Integrated Risk Management for Leisure Services uses a four-phase integrated risk management model. The first three phases focus on negligence, the accident process, and risk management plans to reduce or eliminate injury, damage, or loss. The fourth phase focuses on what to do after an incident occurs to reduce the impact of injury, damage, or loss.

Integrated Risk Management for Leisure Services

Leisure Services Financial Management equips students and professionals with the knowledge and skills to plan, implement, analyze, and report on the financial operations of leisure service agencies, businesses, and organizations. This unique text examines financial management systems, standards, and practices in recreation, leisure, tourism, and related fields, making it an essential reference for both future and current professionals.

Leisure Services Financial Management presents current financial management approaches, giving students an understanding of the differences in accounting methodologies and financial report methods across the private, nonprofit, and public sectors. It offers students in-depth discussion of the knowledge and skills necessary for beginning a career in the varied and dynamic leisure service industry.

Outdoor Adventure Education: Foundations, Theory, and Research provides a comprehensive view of theories, concepts, and developments in outdoor adventure education, as presented by two of the field’s noted leaders. It shows students and professionals how to apply theories and research in constructing frameworks for experiences in outdoor adventure education and how to evaluate those experiences. Outdoor Adventure Education uses evidence, design, and implementation as its underlying themes. As such, it is an indispensable resource that prepares students and professionals alike for success in their careers in outdoor adventure education.

Outdoor Program Administration will help both seasoned and new administrators—as well as students and emerging professionals—flourish in various settings. This text will guide college and university students in developing and sustaining programs in outdoor recreation settings across public, private, and nonprofit sectors. As a reference for outdoor program professionals, this book explores all the issues pertinent to being a successful outdoor program administrator and presents material that will help you improve your administrative skills and enhance the programs you oversee. As such, it’s an essential book for your professional library.

Controversial Issues in Adventure Programming offers an engaging approach to the consideration of enduring, current, and emerging issues in the field. As a primary or supplemental text for upper-level undergraduate and graduate-level classes, it presents 20 issues in a debate format, challenging students to participate in critical discourse concerning these issues as practitioners in the field of adventure programming.

Respected authors Bruce Martin and Mark Wagstaff have assembled a team of more than 50 contributors from around the globe to reassess some of the underlying assumptions on which adventure programming is based. They have critically examined implications of new developments for emerging practice and discussed how best to position the field of adventure programming in addressing broader societal concerns.

Risk Management in Outdoor and Adventure Programs is a primary text for undergraduate outdoor and adventure courses and presents a systematic model for determining why an incident happened and what could be done to prevent a repeat occurrence. More than 50 real-life scenarios represent various situations encountered in outdoor and adventure programming, such as peanut allergies, bridge jumping, stalking by mountain lions, and lightning strikes. These scenarios offer guidance in analyzing hazardous situations and applying appropriate strategies in safety and risk management.

Accidents and mishaps are a reality in outdoor and adventure programs. Applying risk management strategies to the scenarios in Risk Management in Outdoor and Adventure Programs gives outdoor adventure leaders increased knowledge of the inherent risks of their profession as well as their legal responsibilities in programming, leadership, and management. This text can help leaders and their participants enjoy safe and successful adventures in the great outdoors.
Attention instructors — request your exam copy today!

The Human Kinetics website offers an education resource center that provides a variety of resources specifically for instructors, including a list of available e-books, sales rep contact information, and downloadable brochures of the latest textbooks in each subject area. The education resource center also offers a convenient means of requesting your exam copies—simply register with the site and fill out the online form.

Visit www.HumanKinetics.com/Higher-Education to request an exam copy or ancillary materials for any of our textbooks.

If you have further questions or need assistance in choosing a textbook, please contact your sales representative. We are happy to assist you!
